Contractor shall be required to be familiar with local, state and federal laws and regulations as they affect the Work specified in the proposed project. Contractor shall also pay any fees or acquire any permits required as a result of these laws and regulations.

### 3.02 CHANGE ORDERS

- A. The Owner may, from time to time, require changes in the Work to be provided by the Contractor under the project scope. Such changes, including any increase or decrease in the amount of Contractor's compensation, which are mutually agreed upon by and between the Owner and the Contractor, shall be incorporated in written amendments to the Contract Documents. No payment shall be made by the Owner to the Contractor for Work not authorized in writing.

### 3.03 SAFETY REQUIREMENTS

- A. The Contractor shall be responsible for compliance with all applicable safety rules and regulations issued and promulgated by the Department of Labor or other Local, State and Federal agencies having jurisdiction in the project area.
- B. The contractor shall be responsible for their own protection against any/all exposures to hazardous materials located inside the building or on the property as per OSHA and CDC standards. All work shall comply with local, state and federal rules and regulations. A copy of the Patriot Engineering "Pre Demolition Asbestos Inspection, Hazardous Materials Survey & OSHA Lead in Construction Standard Report Statement" which was performed for the project area is included for reference during salvage operations.
- C. The Contractor shall indemnify and hold harmless the Owner for any and all expense incurred by the Contractor for fines, penalties and corrective measures that result from acts of commission or omission by the Contractor, their agents, employees and assigns, in failure to comply with such safety rules and regulations.

### 3.04 PROTECTION AND RESTORATION OF PROPERTY

- A. The Contractor shall use every precaution to prevent damage or destruction of Property to remain. The Contractor shall be responsible for damage or destruction of any character resulting from the neglect, misconduct or omission in its manner or method of execution or non-execution of the Work or caused by defective Work or the use of unsatisfactory materials.
- B. Wherever public or private property is damaged or destroyed, the Contractor shall, at their own expense, restore such property to a condition similar or equal to that existing before such damage or injury was done by repairing, rebuilding or replacing it as it may be directed, or they shall otherwise make good such damage or destruction in an acceptable manner. If the Contractor fails to do so,

the Owner may, after expiration of a period of forty-eight (48) hours and after giving written notice, restore such property as may be deemed necessary and may deduct the expense thereof from the compensation due or which may become due to the Contractor under this Contract.

### 3.05 CLEAN-UP

- A. The Contractor shall, at all times, keep the premises free of accumulations of waste materials or rubbish, cause by its employees or Work. In case of dispute, the Owner, after written notice to the Contractor, may remove any rubbish or waste and surplus materials and charge the cost to the Contractor.

### 3.06 LIQUIDATED DAMAGES

Contractor and Owner recognize that it is difficult or impossible to determine with precision the amount of damages that would or might be incurred by Owner as a result of Contractor's failure to complete the Work by the Substantial Completion deadline. Accordingly, Owner and Contractor agree that Contractor shall pay Owner liquidated damages of \$1,000 for each day after the deadline for Substantial Completion until the Work is Substantially Complete. It is understood and agreed to the Contractor and Owner that Owner would be damaged by the failure of Contractor to meet such obligations, but the: (i) it would be impracticable or extremely difficult to fix the actual damages resulting therefrom; (ii) any sums which would be payable hereunder are in the nature of liquidated damages and not a penalty and are fair and reasonable; and (iii) any such payment represents a reasonable estimate of fair compensation for the losses that may reasonably be anticipated from such failure. Contractor will not challenge the enforceability of this provision related to liquidated damages. Owner may offset any such liquidated damage amounts from any total contract price balance due or to become due to Contractor.

### 3.07 INDEMNITY

- A. The Contractor agrees to indemnify and hold harmless the Owner, the United States Army and their agents and employees from and against all claims, liabilities, damages, actions, causes of action, costs and expenses of every description (including, without limitation, court costs and reasonable attorney's fees) during, growing out of, related to or otherwise connected with, the performance of this Contract by Contractor, its agents, contractors, subcontractors and/or employees and any action taken by them in connection therewith, whether in the nature of injury to persons (including agents and employees of Owner and its contractors) or damage to property (including property of Owner and its contractors) or otherwise, and whether caused or alleged to be caused by the negligence or misconduct of contractor, or anyone

The Owner shall provide the Contractor seven (7) days written notice of their decision to terminate the Contract.
